Newsletter No. 36

Date: 22<sup>nd</sup> June, 2015

Dear Parents,

We will be welcoming our new cohort of Reception children this Friday for an introductory 'Fun afternoon'.

How time flies, our current Year 6 was my first Reception cohort, there were only 8 children originally, and my how St Francis has changed in those 7 years. I wonder what the next 7 years hold in store.

Classes throughout school in the next few weeks will be visiting their next year's teacher in preparation for September.

### Statement to live by

**I know what  
human dignity  
means and I show  
that I respect  
others.**

### Thought of the week

I hope all the dads enjoyed Father's Day yesterday.

It is nice to be nice to fathers on Father's Day, but wouldn't it be nicer to try to be like that every day with them?

**'Together in truth and faith we learn and grow as God's family'**

Sports Day

You should now have received details about sports day. As has happened in the past – we are happy for you to bring deck chairs, picnic blankets to make yourself comfortable while you watch. If you would like a school picnic lunch don't forget to return the slip.

Football News

Our football team performed well at the Catholic Cup last Friday, coming second in their group, unfortunately they didn't bring any silver wear back with them this time.

Myddelton Grange  
There will be a meeting for parents of children going on the Myddelton Grange Residential in the Year 6 classroom at 3:30pm on Wednesday 1<sup>st</sup> July.

Sex Relationship Education or SRE

A letter will be coming home later this week explaining the content of our SRE programme. You will have the opportunity to discuss it further with the class teacher, if you wish to do so, once you have read the letter.

Netball

Our Netball team will be taking part in a tournament with other Catholic Primary schools this week. Wish them luck!

Head Lice

We have had a number of cases reported of head lice in school. It is really important that you check your children's hair on a regular basis. Detection combing is the best way of finding head lice. It involves using a special fine-toothed head lice comb with a tooth spacing of 0.2-0.3mm to comb through the hair (available at chemists).The comb can trap even the smallest lice. It works better on wet hair but can also be used on dry hair.

Head lice can usually be effectively treated with lotions or sprays designed to kill head lice, or by wet combing, using a specially designed head lice comb. It's difficult to prevent a head lice infestation because head lice are spread by head-to-head contact. Regular detection combing – for example, on a weekly basis – is the best way to find new lice quickly.

Lotions and sprays don't prevent head lice infestations and should only be used if a live louse has been found on your, or your child's, head.
