Money Week

This week is money week. I would like to thank Mr. Lambert for beginning the week by giving the children a presentation on the origins of why we use money. The children were made to think about budgets and the importance of savings. Each class is busy making products to sell at our Enterprise Fair on Monday 27th in the afternoon at 2-3pm. The items will be on sale and the children can purchase items there. The older children will partner the younger children and help them with their money. The children will need to bring money to spend at the Enterprise afternoon, please put all money in a sealed and labelled envelope. The proceeds will be placed in our school fund, to provide extra's for the children throughout the year. It is always an enjoyable afternoon.

Sports Day

Weather permitting Sports Day for Reception-Year 6 will take place on Wednesday 13th July. As has happened in the past you have been invited to order a picnic lunch and stay all day. A more detailed letter to order a picnic lunch was sent last week.

Nursery will hold a smaller sports day on the afternoon of Thursday 14th July at 1-45-3pm.

St. Peter and Paul's Celebration Mass.

On Wednesday the 29th June it is the feast day of St. Peter and Paul. Father Galvin will be celebrating Mass in school at 9:10 am. All are welcome to join us for this feast day celebration

European Elections

The Nursery and After School club will be used as a polling station On Thursday 23rd June.

All the children will enter and leave school by the main entrance on that day.

Nursery and After school club will be held in the hall. The front gates will be locked during the day.

Head Lice

We have had a number of cases reported of head lice in school. It is really important that you check your children's hair on a regular basis. Detection combing is the best way of finding head lice. It involves using a special fine-toothed head lice comb with a tooth spacing of 0.2-0.3mm to comb through the hair (available at chemists). The comb can trap even the smallest lice. It works better on wet hair but can also be used on dry hair.

Head lice can usually be effectively treated with lotions or sprays designed to kill head lice, or by wet combing, using a specially designed head lice comb. It's difficult to prevent a head lice infestation because head lice are spread by head-to-head contact. Regular detection combing – for example, on a weekly basis – is the best way to find new lice quickly.

Lotions and sprays don't prevent head lice infestations and should only be used if a live louse has been found on your, or your child's, head.
