Dear Parents,

Throughout the year, we aim to expose our children in years 2 to 6 to the huge world of different jobs and career paths that are available to them. We feel it is important to support the aspirations of our children and enable them to find out more about the wide range of careers that are available to them in the future. We hope that we could spark an interest that could begin their journey to a lifelong career in a job that they never knew existed!

We have specifically identified careers and jobs that match the curriculum topics that are covered throughout the year in years 2 to 6. These are as follows:

- Cartographer
- GP
- Cardiologist
- Dietician
- Nutritionist
- Electrician
- Marine biologist
- Oceanographer
- Geologist
- App programmer
- Electrical engineer
- Mechanical engineer
- Taxonomist
- Meteorologist
- Environmentalist
- Geologist
- Palaeontologist
- Palaeobotanist
- Engineer
- Energy Assessor
- Architect
- Aerospace engineer
- Graphic designers
- Industrial designer
- Interior designer
- Web developer
- Software engineer
- Optometrist
- Vet
- Zoologist

*Together in truth and faith we learn and grow as God's family*

In March, we will be taking part in National Science Week. As part of this, we want to introduce children to a range of STEM careers and future job prospects - this is where we need your help!

If you or anyone you know works as any of the above (or similar) and are willing to speak to a class about their job, please send me an email at [e.fedzin@stfrancismorley.org.uk](mailto:e.fedzin@stfrancismorley.org.uk) The discussion with the children can take place either face to face or virtually via Zoom, for instance.

Thank you for your continued support.

Yours sincerely,

Mrs E Fedzin
