Dear Parents,

## **Lego Robotics JuniorSTEM Workshop**

Next week year group's 1, 2 and 5 will have a visit in school from Lego JuniorSTEM Workshop where the children will be taking part in a unique experience bringing together the world of ICT and DT.

All of JuniorSTEM's primary school workshops are fun and packed full of learning. The activities are very practical – your children will be working hands on for most of the session. Creativity and problem solving are encouraged: we try to help children come up with their own solutions by giving them time to think and gentle guidance. Extension activities/challenges are used to extend higher attaining children whereas less able children can access the programming APP and Lego pieces at their own level and at their own speed.

As always, we rely on your support to fund this workshop; all contributions are on a voluntary basis. The cost will be £5 per child. Please either bring cash in a labelled envelope or pay via Schoolmoney.co.uk facility.

Thank you for your continued support.

Yours sincerely,

**Mrs G. Gibbons**  
**Headteacher**

*Together in truth and faith we learn and grow as God's family*
